4) Requirements

These scripts require the following software installed prior to installation:
- a working installation of Perl 5
- the LWP Perl module (available from CPAN)

5) Additional Information

These scripts were developed on the Mac OS X platform. While we have done our best to avoid OS-related functionality, we have not tested these scripts on a different platform. These scripts are sensitive to changes in NCBI data format and we cannot ensure that they will work as-is should a change in NCBI data format take place.
